| <b>2012 - 2015</b> | <b>MULTIMEDIA COMMUNICATIONS</b><br><b>Colégio de Gaia</b><br>Technical course  |

## STATEMENT

I've recently developed "Crescente", a mixed musical instrument, in the context of my Master's completion regarding the Interactive Music and Sound Design specialization. I'm currently enthusiastic about DIY instruments building, learning how to further program microcontrollers and consolidating other independent projects in the field of photography, performance and music.

I've always kept a strong relationship with music and I've participated on various musical projects, such as Stop!Estra and ATA OWWO + GUILLIO. At the moment I'm a resident artist at Oficina Cobalto in Oporto and also an active member of the LickSickDick collective, producing sound and music for performance/theater pieces and also developing concept ideas for these. I'm also actively working on my electronic music project by the name of ATA OWWO.
